Re: Field Survey for FEMA Flood Studies in Atlantic, Bergen, Morris, Ocean, Passaic,
Somerset and Union Counties

Dear Mayor Zimmerman:

The Federal Emergency Management Agency (FEMA) is preparing new flood studies for Atlantic, Bergen, Morris, Ocean, Passaic, Somerset and Union Counties. The engineering firm Risk Assessment Mapping and Planning Partners (RAMPP), a joint venture between Dewberry, URS, and ESP, and its subcontractors (including Robinson Aerial Surveys and Kennon Surveying Services) are performing land surveying for these new studies. While surveying, surveyors from the above firms will make every effort to stay on public land and right-of-ways; however, it may be necessary from time to time for the surveyors to enter upon privately owned property for short periods of time to gather survey information. Should this occur in your area, an employee from a contracting firm assigned to your county will make every attempt possible to contact the homeowner in advance and seek your permission. The survey crews will be in and around the area from November 19, 2009, through April 30, 2010, and the work will be performed Monday through Sunday from 7 am to 6 pm. The surveyors will respect the homeowner's property and will not interfere with their use of it. Upon request, the surveyors will identify themselves by driver's license and this letter of introduction.

If you have any questions, concerns, or comments, please contact the FEMA Region II Regional Project Officer Paul Weberg at (212) 680-3638 or myself, the RAMPP Task Order Manager at (703) 849-0264. Thank you for your cooperation.

Sincerely,

Jean Huang
RAMPP Task Order Manager
